ABOUT ME

Final-year Information Technology undergraduate with hands-on experience in building full-stack web and native mobile applications using React, Node.js, Spring Boot, and Kotlin. Developed and contributed to academic library, university-operations, marketplace, and personal-finance systems, supported by robust RESTful APIs, optimized database schemas (MySQL, MongoDB), and automated CI/CD testing pipelines. Skilled in UI/UX design with Figma, translating wireframes into responsive, mobile-first interfaces. Passionate about scalable application development, clean API design, and learning industry best practices. Seeking a Full-Stack Engineering Internship to contribute to production-grade software solutions.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, Kotlin, SQL
Frontend: React.js, HTML, CSS
Backend: Node.js, Express.js, Spring Boot, REST APIs, JWT
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Figma, Playwright
Concepts: Full-Stack Development, REST APIs, Test Automation

PROJECTS

Smart Library Management System (Apr 2026) | GitHub

- Developed a full-stack web application using React, Express, Node.js, and MongoDB featuring JWT authentication and role-based access control.
- Built dynamic features including e-book streaming, real-time waiting list maintenance, CSV data import, and inquiry reporting.
- Implemented background cron tasks for automated waitlist expiration and trending analytics calculations.
- Designed and deployed RESTful API endpoints and file upload workflows (Multer), testing and seeding the environment with 100+ demo records.

UniOps – University Operations Platform (May 2026) | GitHub

- Developed a full-stack university operations platform using Spring Boot, React, Vite, and MySQL to streamline campus resource management.
- Implemented core modules for room bookings, support ticketing, real-time notifications, and dynamic analytics dashboards.
- Built secure RESTful APIs featuring role-based access control (RBAC) to handle multi-level user permissions across the institution.
- Integrated file upload workflows and database schemas engineered for scalable resource tracking and reporting.

Singlish-to-Sinhala Translator (Jan 2026) | GitHub

- Designed and executed 35+ automated test cases for a Singlish-to-Sinhala web transliteration tool using Python and Playwright.
- Built a data-driven test runner utilizing openpyxl to parse Excel workbooks, dynamically handle merged cells, and write back execution status (PASS/FAIL/UI Error).
- Achieved ~85% test coverage across positive functional, negative edge-case, and UI interaction scenarios.
- Reduced manual testing effort by 60% through automated end-to-end browser interactions and real-time output validation.

All-in-one Personal Assistance Application (May 2025) | GitHub

- Collaborated in a 5-member team to develop a full-stack MERN marketplace managing multi-role workflows for customers, service providers, and admins.
- Implemented core features including service booking, automated payment processing, refund handling, interactive reviews, and AI chatbot assistance.
- Built provider/admin management dashboards to oversee service listings, user roles, financial transactions, and operational reports.
- Integrated secure REST APIs and scheduled backend tasks to manage automated financial workflows and booking status updates.

Fiscord – Personal Finance Tracker (Oct 2024) | GitHub

- Developed a native Android application using Kotlin to enable real-time income, expense, and transaction tracking.
- Implemented budget monitoring features, categorized spending tracking, and interactive dashboards with analytical charts.
- Integrated local data persistence, automated notifications, and backup/restore functionality to ensure user data reliability.
- Designed an intuitive, modern UI to simplify financial management and enhance overall user engagement.

EDUCATION

BSc (Hons) in IT Specializing in Information Technology (Undergraduate)
(2023 - Present)
Sri Lanka Institute of Information Technology (SLIIT)

G.C.E (A/L) | Engineering Technology (2022)
Rathnavali Balika Vidyalaya, Gampaha

G.C.E (O/L) (Dec 2018)
Rathnavali Balika Vidyalaya, Gampaha
